POSTING DETAILS:

Position Location:

City: Brinkley, Arkansas

Office: Sheffield Nelson Dagmar Wildlife Management Area

Division: Wildlife Management

Job Summary:

The AGFC Biological Technician I is responsible for forest and fish propagation, fire prevention, cultivation, and harvesting activities and/or maintaining a wildlife management area. This position is governed by state and federal laws and agency policy.

Typical Functions:

Inspects forest lands for damage by insects or disease, assists in implementing plans or recommendations for control measures, and prepares plans for site preparation or improvement of planting, harvesting, marketing, or wildlife use. Conducts or assists in conducting research on collected samples, such as fish, blood, water, soil, and plant species, and examines animals and specimens to detect diseases or other problems. Conducts agricultural and forest management activities on wildlife management areas, including preparing seed beds and plant foods; selects and marks trees for thinning and/or logging utilizing soil erosion control measures and maintains waterways, dams, and ponds. Monitors and inspects public and private wildlife to ensure compliance with state regulations and trains various personnel in activities, such as fire safety, accident prevention, and maintenance and calibration of scientific and technical equipment. Gathers, provides, and presents general and forestry educational information and training to various federal, state, local health officers, community organizations, and the general public. Provides technical support and services for scientists and engineers working in fields, such as agriculture, environmental science, resource management, and biology. Assists in conducting fish and game propagation and maintenance activities, including monitoring of spawning, hatching, incubation, sexing, and feeding. Prepares reports pertaining to wildlife findings, conclusions and recommendations. Cleans, maintains, prepares, and supplies work areas. Performs other duties as assigned.

Specific Duties and Responsibilities:

Works under general supervision performing custodial duties; Monitors contract activities; Works in inclement weather under heavy physical demands. Works outside of normal work hours to complete Division and Regional assignments, Inspects forest lands for damage by insects or disease, assists in implementing plans or recommendations for control measures, and prepares plans for site preparation or improvement of planting, harvesting, marketing, or wildlife use; Conducts or assists in conducting research on collected samples, such as, blood, water, soil, and plant species, and examines animals and specimens to detect diseases or other problems; Conducts agricultural and forest management activities and operation of agriculture equipment on wildlife management areas, including preparing seed beds, planting, disking and bush hogging; Gathers, provides, and presents general wildlife and forestry educational information to various federal, state, local health officers, community organizations, and the general public; Assists in conducting various research projects, CWD, heard health check, quail surveys, wood duck/dove banding; Prepares reports pertaining to wildlife findings, conclusions and recommendations; Cleans, maintains, prepares and supplies work areas; Performs water level management on Green Tree Reservoirs (GTR) and moist soil units. Operates and performs maintenance on water control structures; Mark, maintain and remove logs from boat trails; Performs other duties as assigned. The individual selected for this position will be responsible for: Conducting maintenance and operation projects on Sheffield Nelson/Dagmar WMA, St. Francis National Forest and Prairie Bayou WMA. The NRPT will assist with capture and relocation of nuisance alligators/bears/feral hogs, and handle general nuisance animal calls as needed in the eastern portion of the Region.

Certificates, Licenses, or Registrations:

Must possess a valid Arkansas driver's license.

Special Job Dimensions:

n/a

Other Specific Information:

The employee's duty station will be located at Sheffield Nelson Dagmar WMA and will be required to live within 50 miles of this location.

This position is required, as per the Prescribed Fire Planning and Implementation Procedures and Policy, to complete a two-mile walk carrying 25 pounds in 30 minutes within the first year of employment.
