POSTING DETAILS:

Position Location:

City: Mountain Home, Arkansas

Office: Trout Management Program

Division: Fisheries

Job Summary:

The Conservation Program Technician is responsible for forest and fish propagation, fire prevention, cultivation, and harvesting activities and/or maintaining a wildlife management area. This position is governed by state and federal laws and agency policy.

Typical Functions:

Inspects forest lands for damage by insects or disease, assists in implementing plans or recommendations for control measures, and prepares plans for site preparation or improvement of planting, harvesting, marketing, or wildlife use.

Conducts or assists in conducting research on collected samples, such as fish, blood, water, soil, and plant species, and examines animals and specimens to detect diseases or other problems.

Conducts agricultural and forest management activities on wildlife management areas, including preparing seed beds and plant foods; selects and marks trees for thinning and/or logging utilizing soil erosion control measures and maintains waterways, dams, and ponds.

Monitors and inspects public and private wildlife to ensure compliance with state regulations and trains various personnel in activities, such as fire safety, accident prevention, and maintenance and calibration of scientific and technical equipment.

Gathers, provides, and presents general and forestry educational information and training to various federal, state, local health officers, community organizations, and the general public.

Provides technical support and services for scientists and engineers working in fields, such as agriculture, environmental science, resource management, and biology.

Assists in conducting fish and game propagation and maintenance activities, including monitoring of spawning, hatching, incubation, sexing, and feeding.

Prepares reports pertaining to wildlife findings, conclusions and recommendations.

Cleans, maintains, prepares, and supplies work areas.

Performs other duties as assigned.

Specific Duties and Responsibilities:

The selected individual will assist with work activities associated with the Trout Management Program. General job duties will include conducting on-site angler interviews and/or angler counts as part of a creel survey on the Greers Ferry Tailwater (Little Red River). Interviews will be conducted on the tailwater between Greers Ferry Dam and the Highway 305 Bridge at Dewey, AR. The survey will start in March of 2020 and run through February of 2021. The position will require irregular work hours in accordance with a pre-determined creel schedule. The individual will be required to work on randomly selected weekdays and weekend days and during inclement weather

Certificates, Licenses, or Registrations:

Must possess a valid Driver's License with a good driving record.

Special Job Dimensions:

All applicants are subject to a criminal background check.

Other Specific Information:

Individual should reside in the vicinity of Cleburne County.

As an equal opportunity employer, the Commission will make any reasonable accommodations necessary to ensure equal employment opportunities.
