POSTING DETAILS:

Position Location:

City: Scotland

Office: Russellville Regional Office; Scott Henderson Gulf Mountain WMA

Division: Wildlife Management

Job Summary:

The Conservation Program Technician is responsible for forest and fish propagation, fire prevention, cultivation, and harvesting activities and/or maintaining a wildlife management area. This position is governed by state and federal laws and agency policy.

Typical Functions:

Inspects forest lands for damage by insects or disease, assists in implementing plans or recommendations for control measures, and prepares plans for site preparation or improvement of planting, harvesting, marketing, or wildlife use. Conducts or assists in conducting research on collected samples, such as fish, blood, water, soil, and plant species, and examines animals and specimens to detect diseases or other problems. Conducts agricultural and forest management activities on wildlife management areas, including preparing seed beds and plant foods. Selects and marks trees for thinning and/or logging utilizing soil erosion control measures and maintains waterways, dams, and ponds. Monitors and inspects public and private wildlife to ensure compliance with state regulations and trains various personnel in activities, such as fire safety, accident prevention, and maintenance and calibration of scientific and technical equipment. Gathers, provides, and presents general and forestry educational information and training to various federal, state, local health officers, community organizations, and the general public. Provides technical support and services for scientists and engineers working in fields, such as agriculture, environmental science, resource management, and biology. Assists in conducting fish and game propagation and maintenance activities, including monitoring of spawning, hatching, incubation, sexing, and feeding. Prepares reports pertaining to wildlife findings, conclusions and recommendations. Cleans, maintains, prepares, and supplies work areas. Performs other duties as assigned.

Specific Duties and Responsibilities:

Duties include, but are not limited to: Large tractor operation using a variety of implements for habitat management, such as food plot establishment, fire line maintenance, fallow disking, bush hogging, etc...., prescribed fire duties at the holder and ignitor level, chainsaw operation for a variety of habitat work, herbicide use through a variety of techniques for habitat improvements, data collection for a variety of wildlife species, online/application data entry, CWD monitoring efforts, road/trail and other area maintenance, communications with area users, assistance on other areas as needed, and all other duties as assigned.

Certificates, Licenses, or Registrations:

Must possess a valid Arkansas driver's license.

Special Job Dimensions:

N/A

Other Specific Information:

Two positions will be open until filled.

This position is required, as per the Prescribed Fire Planning and Implementation Procedures and Policy, to complete a two-mile walk carrying 25 pounds in 30 minutes within the first year of employment. This position is required to obtain a Non-Commercial Pesticide Applicators license within the first year of employment. This position is required to obtain a commercial driver's license within 1 year of employment.

Works in inclement weather under heavy physical demands. Works outside of normal work hours to complete division and regional assignments.

This position has the designation of a safety-sensitive position. Applicants being considered for this position are subject to pre-employment drug and alcohol testing. Refusal to submit to testing will result in disqualification of further employment consideration. If offered a position, employees in this position will be subject to periodic drug and alcohol testing.

All applicants are subject to a criminal background check.

As an equal opportunity employer, the Commission will make any reasonable accommodations necessary to ensure equal employment opportunities.
