POSTING DETAILS:

Position Location:

City: Brinkley

Office: Brinkley Regional Office

Division: Wildlife Management

Job Summary:

The AGFC Biological Technician I is responsible for forest and fish propagation, fire prevention, cultivation, and harvesting activities and/or maintaining a wildlife management area. This position is governed by state and federal laws and agency policy.

Typical Functions:

Inspects forest lands for damage by insects or disease, assists in implementing plans or recommendations for control measures, and prepares plans for site preparation or improvement of planting, harvesting, marketing, or wildlife use. Conducts or assists in conducting research on collected samples, such as fish, blood, water, soil, and plant species, and examines animals and specimens to detect diseases or other problems. Conducts agricultural and forest management activities on wildlife management areas, including preparing seed beds and plant foods; selects and marks trees for thinning and/or logging utilizing soil erosion control measures and maintains waterways, dams, and ponds. Monitors and inspects public and private wildlife to ensure compliance with state regulations and trains various personnel in activities, such as fire safety, accident prevention, and maintenance and calibration of scientific and technical equipment. Gathers, provides, and presents general and forestry educational information and training to various federal, state, local health officers, community organizations, and the general public. Provides technical support and services for scientists and engineers working in fields, such as agriculture, environmental science, resource management, and biology. Assists in conducting fish and game propagation and maintenance activities, including monitoring of spawning, hatching, incubation, sexing, and feeding. Prepares reports pertaining to wildlife findings, conclusions and recommendations. Cleans, maintains, prepares, and supplies work areas. Performs other duties as assigned.

Specific Duties and Responsibilities:

Assist the WMA biologist with implementation of the moist-soil management plan for Cypress Bayou WMA and Steve N. Wilson Raft Creek Bottoms WMA. Job duties will include budget development, record keeping, coordination with contractors and other division staff. Direct implementation of moist soil management techniques to include disking, rolling, herbicide applications, planting and water-level manipulation. Coordinates and conducts lottery style permit draw system during waterfowl season. Conducts agricultural and forest management activities on wildlife management areas, including preparing seed beds and planting food sources. Inspect and maintain boundary line and information signs on WMA. Assists in conducting various research projects such as CWD, heard health check, wildlife surveys, and wood duck and dove banding. Prepares reports pertaining to moist soil management activities and hunter harvest reports. Operates and performs maintenance on agriculture equipment to include tractors, farm implements, ATV/UTV, power units, wells, re-lift pumps and water control structures. Inspect and maintain access trails and boat trails. The individual selected for this position will be responsible for overseeing maintenance and operation projects on Cypress Bayou and Steve N. Wilson Raft Creek WMA.

Certificates, Licenses, or Registrations:

Must possess a valid Arkansas driver's license.

Special Job Dimensions:

n/a

Other Specific Information:

Requirements of occasional overnight travel to attend various training, seminars or assignments may be necessary. Perform strenuous and physically demanding tasks and work outdoors year round in inclement weather. May be required to work certain holidays and weekends.

The employees' duty station will be located at Steve N. Wilson Raft Creek WMA and will be required to live with 50 miles of this location.

This position is required to obtain a Non-Commercial Pesticide Applicators license with 1 year of employment.

This position is required, as per the Prescribed Fire Planning and Implementation Procedures and Policy, to complete a two-mile walk carrying 25 pounds in 30 minutes within the first year of employment. This position is required to obtain certification as Wildland Fire Fighter Type 2 (FFT2) per the National Wildfire Coordinating Group (NWCG).

This position has the designation of a safety-sensitive position. Applicants being considered for this position are subject to pre-employment drug and alcohol testing. Refusal to submit to testing will result in disqualification of further employment consideration. If offered a position, employees in this position will be subject to periodic drug and alcohol testing.

All applicants are subject to a criminal background check.

As an equal opportunity employer, the Commission will make any reasonable accommodations necessary to ensure equal employment opportunities.
