POSTING DETAILS:

Position Location:

City: Dardanelle

Office: Petit Jean River WMA

Division: Wildlife Management

Job Summary:

The Biological Technician I is responsible for forest and fish propagation, fire prevention, cultivation, and harvesting activities and/or maintaining a wildlife management area. This position is governed by state and federal laws and agency policy.

Typical Functions:

Inspects forest lands for damage by insects or disease, assists in implementing plans or recommendations for control measures, and prepares plans for site preparation or improvement of planting, harvesting, marketing, or wildlife use.

Conducts or assists in conducting research on collected samples, such as fish, blood, water, soil, and plant species, and examines animals and specimens to detect diseases or other problems.

Conducts agricultural and forest management activities on wildlife management areas, including preparing seed beds and plant foods; selects and marks trees for thinning and/or logging utilizing soil erosion control measures and maintains waterways, dams, and ponds.

Monitors and inspects public and private wildlife to ensure compliance with state regulations and trains various personnel in activities, such as fire safety, accident prevention, and maintenance and calibration of scientific and technical equipment.

Gathers, provides, and presents general and forestry educational information and training to various federal, state, local health officers, community organizations, and the general public.

Provides technical support and services for scientists and engineers working in fields, such as agriculture, environmental science, resource management, and biology.

Assists in conducting fish and game propagation and maintenance activities, including monitoring of spawning, hatching, incubation, sexing, and feeding.

Prepares reports pertaining to wildlife findings, conclusions and recommendations.

Cleans, maintains, prepares, and supplies work areas.

Performs other duties as assigned.

Specific Duties and Responsibilities:

- Will work under the direct supervision of a regional field biologist.
- Will be responsible for planning, coordinating and/or directly overseeing/implementing the day to day work activities on Petit Jean River Wildlife Management Area (WMA) and assisting with implementing habitat improvement practices on Harris Brake, Nimrod and other WMAs.
- Collect and submit scientific data and specimen samples for analysis, write reports, and maintain records, present oral and written information.
- Operation and maintenance of large agricultural tractors and implements as well as ATVs and UTVs.
- Will be required to carry out specialized agricultural practices to improve habitats in both upland and wetland areas.
- Must assume a proactive role in assisting in the development of area budgets, maintaining ledgers and records, managing budgets and submitting reports.
- Coordinates with regional field biologist, regional habitat biologist and regional supervisory staff to develop and implement habitat plans for wetland and upland habitats.
- Provides technical assistance to the public in resolving nuisance wildlife problems and provides advice and technical assistance to landowners.
- Oversees and/or directs water level management and identifies repair and maintenance upkeep needs for commission equipment, machinery, properties and capital improvements.
- Coordinates with regional maintenance coordinator to budget and carry out maintenance and new development items.
- Prepares materials for public presentations and gives presentations to various organizations.
- Performs a variety of other tasks as needed within the region, other AGFC Divisions or other areas of the state.
- Will be required to receive specialize training and certifications in, but not limited to, prescribed fire, chemical immobilization of animals, and pesticide application.
- Occasional overnight travel to attend various training, seminars or assignments may be necessary.
- Perform strenuous and physically demanding tasks and work outdoors year round in inclement weather.
- May be required to work certain holidays and weekends.
- Performs other duties as assigned.
- Must have a valid Arkansas driver's license.

Certificates, Licenses, or Registrations:

Must possess a valid Arkansas driver's license.

Special Job Dimensions:

N/A

Other Specific Information:

This position is required, as per the Prescribed Fire Planning and Implementation Procedures and Policy, to complete a two-mile walk carrying 25 pounds in 30 minutes within the first year of employment. This position is also required to obtain a Non-Commercial Pesticide Applicators license within the first year of employment.

As an equal opportunity employer, the Commission will make any reasonable accommodations necessary to ensure equal employment opportunities.
