POSTING DETAILS:

Position Location:

City: Little Rock

Office: AGFC Headquarters Office

Division: Environmental Coordination Division

Job Summary:

The AGFC Internship program is designed to help students gain education and practical experience related to the conservation work AGFC performs and to meet hands-on training requirements necessary for students to earn their degree. This training is critical to students pursuing a conservation career and is often the deciding factor in gaining employment after college.

Typical Functions:

To be determined by the hiring supervisor.

Specific Duties and Responsibilities:

The Environmental Coordination Division's (ECD) intern will be provided the opportunity to learn how the Arkansas Game & Fish Commission utilizes state and federal laws to protect, conserve, and restore the state's natural resources. The ECD intern will assist the division with its responsibilities of performing environmental reviews of development projects, ensuring environmental and cultural compliance of AGFC internal projects, facilitating the implementation of federally authorized Civil Works projects including navigation, flood control, and ecosystem restoration, and serving as the liaison between the Commission and our federal partners.

The intern will gain familiarity with the environmental permitting and review process and will assist with fulfilling the agency's responsibilities under federal laws such as the Clean Water Act, Fish and Wildlife Coordination Act, Rivers and Harbors Act, Water Resources Development Act, and the National Environmental Policy Act. This position will include both office and fieldwork components.

Office work will include data entry into a project management system, performing desktop-level environmental reviews in GIS, and coordinating with appropriate AGFC staff to aid in project environmental review. Fieldwork consists of visiting the sites of potential impact/restoration projects and documenting project conditions. Soils, hydrology, and biota are all examined in the field to determine a project's potential impacts.

Certificates, Licenses, or Registrations:

None

Special Job Dimensions:
