Division: Wildlife Management

Job Summary:

The Arkansas Game and Fish Commission (AGFC) Biological Technician I is responsible for forest and fish propagation, fire prevention, cultivation, and harvesting activities, as well as maintaining a wildlife or fisheries management area. This position is governed by state and federal laws and agency policy..

Typical Functions:

- Assists program coordinators, habitat biologists, and field biologists in the planning, preparation, and implementation of wildlife habitat management and maintenance projects on wildlife management areas
- Conducts wildlife and habitat management activities on wildlife management areas.
- Monitors and operates wildlife management areas infrastructure, including levees, roads, parking lots, water control structures, waterways, campsites, etc.
- Conduct operations in compliance with state and federal regulations such as fire safety, accident prevention, vehicle operation, pesticide application and waterway drainage.
- Monitors assigned wildlife management areas for invasive species and assists in control efforts.
- Collects or assists in collecting biological samples and entering data. Collects biological data for wildlife monitoring and research.
- Calibrates and operates wildlife management equipment, such as seed drills, planters, weed eaters, chainsaws, lawn mowers, ATVs, boats, tractors, dozers, backhoes, rollers, sprayers and others as necessary.
- Serves as a member of the agency's prescribed burn program and assists with the implementation of prescribed burns on state-managed WMAs. Specific physical fitness demands for prescribed burning are required.
- Cleans, maintains, prepares, and supplies work areas.

Specific Duties and Responsibilities:

Job duties will include:

- Day-to-day operations of Sylamore WMA
- Extensive operation of agricultural equipment as well as the ability to participate in other habitat management activities, including prescribed burning, wildlife openings, invasive species control, and wildlife stand improvements
- Regular coordination and oversight of contractors, planning, and coordination of habitat management activities
- Collaborating and coordinating with conservation partners
- Assistance with regional prescribed burning activities and with wildlife program-related data collection efforts
- Other duties as assigned.

Certificates, Licenses, or Registrations:

Must possess a valid Arkansas driver's license.

Special Job Dimensions:

.

Other Specific Information:

- This position is required, as per the Prescribed Fire Planning and Implementation Procedures and Policy, to complete a two-mile walk carrying 25 pounds in 30 minutes
- May be required to work some holidays and weekends

As an equal opportunity employer, the Commission will make any reasonable accommodations necessary to ensure equal employment opportunities.
