Position Location:

City: Jonesboro

Office: St. Francis Sunken Lands WMA

Division: Wildlife Management

Job Summary:

The Arkansas Game and Fish Commission (AGFC) Biological Technician I is responsible for forest and fish propagation, fire prevention, cultivation, and harvesting activities, as well as maintaining a wildlife or fisheries management area. This position is governed by state and federal laws and agency policy..

Typical Functions:

- Assists program coordinators, habitat biologists, and field biologists in the planning, preparation, and implementation of wildlife habitat management and maintenance projects on wildlife management areas
- Conducts wildlife and habitat management activities on wildlife management areas.
- Monitors and operates wildlife management areas infrastructure, including levees, roads, parking lots, water control structures, waterways, campsites, etc.
- Conduct operations in compliance with state and federal regulations such as fire safety, accident prevention, vehicle operation, pesticide application and waterway drainage.
- Monitors assigned wildlife management areas for invasive species and assists in control efforts.
- Collects or assists in collecting biological samples and entering data. Collects biological data for wildlife monitoring and research.
- Calibrates and operates wildlife management equipment, such as seed drills, planters, weed eaters, chainsaws, lawn mowers, ATVs, boats, tractors, dozers, backhoes, rollers, sprayers and others as necessary.
- Serves as a member of the agency's prescribed burn program and assists with the implementation of prescribed burns on state-managed WMAs. Specific physical fitness demands for prescribed burning are required.
- Cleans, maintains, prepares, and supplies work areas.

Specific Duties and Responsibilities:

- Will work under the direct supervision of the SFSL/EBBD WMA Biologist I, assisting with implementing habitat improvement practices and maintenance on SFSL WMA and other R-I WMAs as needed
- Will collect and submit scientific data and specimen samples for analysis, write reports, maintain records, and present oral and written information
- Will operate and maintain large agricultural tractors and implements, as well as ATVs and UTVs
- Will be required to carry out specialized agricultural practices to improve habitats in both upland and wetland areas
- Must assume a proactive role in assisting with the development of area budgets, maintaining ledgers and records, managing budgets, and submitting reports
- Coordinates with other field biologists, habitat biologists, program coordinators, and supervisory staff to develop and implement habitat plans for wetland and upland habitats
- Provides technical assistance to the public in resolving nuisance wildlife problems and provides advice and technical assistance to landowners
- Oversees and/or directs water level management and identifies repair and maintenance upkeep needs for commission equipment, machinery, properties, and capital improvements
- Coordinates with the regional maintenance contract coordinator to budget and carry out maintenance and new development items
- Prepares materials for public presentations and gives presentations to various organizations. P
- Performs a variety of other tasks as needed within the region, other AGFC Divisions, or other areas of the state
- Will be required to receive specialized training and certifications in, but not limited to, prescribed fire, chemical immobilization of animals, and pesticide application.
- Occasional overnight travel may be required to attend various training sessions, seminars, or assignments
- Performs strenuous and physically demanding tasks and works year-round outdoors in inclement weather
- May be required to work certain holidays and weekends
- Performs other duties as assigned.

Certificates, Licenses, or Registrations:

Must possess a valid Arkansas driver's license.

Special Job Dimensions:

.

Other Specific Information:

- Frequent in-state travel and field work are required
- Frequent interaction with hunters and other outdoor recreationists and exposure to live animals may be required
- Heavy physical demands in inclement weather
- Regular operation of heavy equipment and handling of chemicals that may be dangerous if handled improperly
- This position is required, as per the Prescribed Fire Planning and Implementation Procedures and Policy, to complete a two-mile walk carrying 25 pounds in 30 minutes within the first year of employment.
- Some overnight travel may be required
- The successful applicant will be required to obtain a Non-Commercial Pesticide Applicator's license within the first year of employment.

As an equal opportunity employer, the Commission will make any reasonable accommodations necessary to ensure equal employment opportunities.
