POSTING DETAILS:

Position Location:

City: Hot Springs

Office: Andrew Hulsey Hatchery

Division: Fisheries

Job Summary:

The Conservation Program Technician is responsible for forest and fish propagation, fire prevention, cultivation, and harvesting activities and/or maintaining a wildlife management area. This position is governed by state and federal laws and agency policy.

Typical Functions:

Inspects forest lands for damage by insects or disease, assists in implementing plans or recommendations for control measures, and prepares plans for site preparation or improvement of planting, harvesting, marketing, or wildlife use.

Conducts or assists in conducting research on collected samples, such as fish, blood, water, soil, and plant species, and examines animals and specimens to detect diseases or other problems.

Conducts agricultural and forest management activities on wildlife management areas, including preparing seed beds and plant foods; selects and marks trees for thinning and/or logging utilizing soil erosion control measures and maintains waterways, dams, and ponds.

Monitors and inspects public and private wildlife to ensure compliance with state regulations and trains various personnel in activities, such as fire safety, accident prevention, and maintenance and calibration of scientific and technical equipment.

Gathers, provides, and presents general and forestry educational information and training to various federal, state, local health officers, community organizations, and the general public.

Provides technical support and services for scientists and engineers working in fields, such as agriculture, environmental science, resource management, and biology.

Assists in conducting fish and game propagation and maintenance activities, including monitoring of spawning, hatching, incubation, sexing, and feeding.

Prepares reports pertaining to wildlife findings, conclusions and recommendations.

Cleans, maintains, prepares, and supplies work areas.

Performs other duties as assigned.

Specific Duties and Responsibilities:

The selected individual will be responsible for assisting in planning and participation in the operations of a warmwater fish hatchery, which will include specialized fish spawning projects and/or specialized research projects. Duties will include general upkeep of hatchery grounds; operate mowing equipment; assist the hatchery crew in general maintenance; operate trucks and tractors; assist in harvest operations; perform public relation activities; operate and generate reports on computer-based programs; and other duties as deemed necessary. Job requires heavy physical demands; working in inclement weather and travels for short periods away from the duty station.

Certificates, Licenses, or Registrations:

Must possess a valid Driver's License with a good driving record.

Special Job Dimensions:

All applicants are subject to a criminal background check.

Other Specific Information:

REQUIRED LICENSES:

Must possess a valid Arkansas Driver's License with a good driving record.

The selected individual will be required to live within a 30-mile radius of Hot Springs.

As an equal opportunity employer, the Commission will make any reasonable accommodations necessary to ensure equal employment opportunities.
