Successful applicant should have a passion for conservation and actively pursuing a career related to natural resource management.

POSTING DETAILS:**Position Location:**

City: Hot Springs, AR- Hot Springs Regional Office

Office: Hot Springs Regional Office

Division: Fisheries

Job Summary:

The AGFC's internship program allows students to gain practical experience and meet hands-on training requirements necessary to earn their degrees and gain valuable career-oriented experience.

Program Goals and Opportunities:

The AGFC Internship program is designed to help students gain education and practical experience related to the conservation work AGFC performs and to meet hands-on training requirements necessary for students to earn their degree. This training is critical to students pursuing a conservation career and is often the deciding factor in gaining employment after college.

Typical Functions:

Inspects forest lands for damage by insects or disease, assists in implementing plans or recommendations for control measures, and prepares plans for site preparation or improvement of planting, harvesting, marketing, or wildlife use. Conducts or assists in conducting research on collected samples, such as fish, blood, water, soil, and plant species, and examines animals and specimens to detect diseases or other problems. Conducts agricultural and forest management activities on wildlife management areas, including preparing seed beds and plant foods; selects and marks trees for thinning and/or logging utilizing soil erosion control measures and maintains waterways, dams, and ponds. Monitors and inspects public and private wildlife to ensure compliance with state regulations and trains various personnel in activities, such as fire safety, accident prevention, and maintenance and calibration of scientific and technical equipment. Gathers, provides, and presents general and forestry educational information and training to various federal, state, local health officers, community organizations, and the general public. Provides technical support and services for scientists and engineers working in fields, such as agriculture, environmental science, resource management, and biology. Assists in conducting fish and game propagation and maintenance activities, including monitoring of spawning, hatching, incubation, sexing, and feeding. Prepares reports pertaining to wildlife findings, conclusions and recommendations. Cleans, maintains, prepares, and supplies work areas. Performs other duties as assigned.

Specific Duties and Responsibilities:

Assists District 8 biologists and Arkansas Black Bass Program with a variety of duties related to the monitoring and evaluation of wild fish populations, and creating revitalization of fish habitat; Intern works under the direct supervision of the District Biologist and/or Black Bass Biologist; Intern will be required to travel to different locations within the state on a minimal basis

Certificates, Licenses, or Registrations:

NONE

Special Job Dimensions:

Internships are no more than 400 hours for 10 weeks amounting to roughly 40 hours per week at a rate of \$12.75 per hour. Intern positions will be available through June, July, and August. Flexible work schedules can be established with your division supervisor.

REQUIRED DOCUMENTATION:

Please upload and attach to this application:

1. A current resume.
2. A one-page cover letter to include goals, interests, and how an AGFC internship will help accomplish those goals.
3. A copy of your unofficial or official college transcript(s). Official transcripts will be required prior to employment start date.

IF THESE DOCUMENTS ARE NOT ATTACHED YOUR APPLICATION WILL BE DETERMINED INCOMPLETE UNTIL THEY ARE RECEIVED.

If you are unable to attach your documentation you may email them to NYKKI.ALLRED@AGFC.AR.GOV, attention with the position name and position number in the subject. All documents must be received by March 31, 2023.

Other Specific Information:

Interest and educational background in biology (fisheries biology preferred), desire to work outdoors even in inclement weather, good computer skills, outgoing personality and ability to communicate with the general public, peers and supervisors; Applicants must have a basic knowledge of fisheries science principles/techniques, and a basic knowledge regarding identification of native flora and fauna; Applicants must be willing to work odd hours outside under physical demands in a variety of inclement weather conditions; Applicants must have the ability or willingness to learn to operate ATVs, boats with motors, small shop tools including lawnmowers, weed eaters, skill saws, etc., and farm related equipment such as small tractors with implements; Heavy physical demands in inclement weather; Expect to work varied hours during the week and weekends if needed.

As an equal opportunity employer, the Commission will make any reasonable accommodations necessary to ensure equal employment opportunities.
