**POSTING DETAILS:**

Position Location:

City: Little Rock

Office: Witt Stephens Jr. Central Arkansas Nature Center

Division: Education

Job Summary:

The AGFC's internship program allows students to gain practical experience and meet hands-on training requirements necessary to earn their degrees and gain valuable career-oriented experience.

Program Goals and Opportunities:

The AGFC Internship program is designed to help students gain education and practical experience related to the conservation work AGFC performs and to meet hands-on training requirements necessary for students to earn their degree. This training is critical to students pursuing a conservation career and is often the deciding factor in gaining employment after college.

Typical Functions:

Inspects forest lands for damage by insects or disease, assists in implementing plans or recommendations for control measures, and prepares plans for site preparation or improvement of planting, harvesting, marketing, or wildlife use. Conducts or assists in conducting research on collected samples, such as fish, blood, water, soil, and plant species, and examines animals and specimens to detect diseases or other problems. Conducts agricultural and forest management activities on wildlife management areas, including preparing seed beds and plant foods; selects and marks trees for thinning and/or logging utilizing soil erosion control measures and maintains waterways, dams, and ponds. Monitors and inspects public and private wildlife to ensure compliance with state regulations and trains various personnel in activities, such as fire safety, accident prevention, and maintenance and calibration of scientific and technical equipment. Gathers, provides, and presents general and forestry educational information and training to various federal, state, local health officers, community organizations, and the general public. Provides technical support and services for scientists and engineers working in fields, such as agriculture, environmental science, resource management, and biology. Assists in conducting fish and game propagation and maintenance activities, including monitoring of spawning, hatching, incubation, sexing, and feeding. Prepares reports pertaining to wildlife findings, conclusions and recommendations. Cleans, maintains, prepares, and supplies work areas. Performs other duties as assigned.

Specific Duties and Responsibilities:

The intern at the Central Arkansas Nature Center will work with staff and volunteers in providing a wide range of educational programs and events for youth and adults. Main intern duties and responsibilities are listed below:

- \*assist with animal care and feeding
- \*facilitate education programs and activities for the public and school groups
- \*create and facilitate at least one new program or activity
- \*create and facilitate at least one temporary exhibit, display, or education station
- \*front desk visitor assistance - managing the front desk and greeting/assisting visitors
- \*assist gift shop manager with stocking, cleaning, and resale
- \*assist with maintenance and grounds upkeep and recycling

Certificates, Licenses, or Registrations:
